Report of the WG13 (ILII) for the TC46/SC9 plenary meeting 4 June 2015 in Beijing

Akira MIYAZAWA: convenor WG13
2015-05-07

WG13 was formed in February 2015 with nine members. In the April, with the KEBS (Kenya)'s downgrading to 'O' members status, two members were removed from the WG, and now we have seven members. Discussions are made mainly through e-mail communications.

Some technical issues have been discussed, including the scope, ambiguity of the syntax, and URI representation. The definition of the scope is almost agreed upon, except for minor wordings. A new syntax to avoid ambiguity is proposed and under consideration. The issue of URI representation for ILII is still under discussion.

Planned schedule is as follows:

- End of July, 2015: concluding technical discussions,
- August-September: Editorial revisions,
- October: finishing the working draft.
