  - ANSINISO Z39.91 - 200x Collection Description Specification - DSFTU
  - ANSINISO/ISO 12083-1995 (R2002) Electronic Manuscript Preparation and Markup
- And several others ...

## 2007-2008 issues

- DAISY – Z39.86 – Talking Book revision: assessed concept proposal, gave green light for revision process, now CCM is considering the actual revision at what is involved.
- Journal Article Versioning (best practice) – now officially published
- Reviewed and approved RFID Best Practice document (published early 2008)
- Worked with NISO staff on planning and executing June Thought Leader Meeting (preliminary report to be published in July)

## On our 2008-2009 agenda

- Examine current work on unique Collection identifiers; determine inclusions and omissions (article to be published)
- Take a close look at the new ISO International Standard Text Code (ISTC) in relation to the ISBN, and resolution issues that relate to libraries

## 2008-2009 agenda

- Follow up and discuss Thought Leader recommendations with an eye towards recommended standards development activity
- And then, the routine standards work:
  - Library Shelving
  - Z39.3 Interchange Format
  - ISSN (NISO – ISO agreement)
  - Language codes (NISO – ISO agreement)
  - Etc.

## What can YOU do?

- Topic Committees envisioned as having chair/co-chair with staggered 2-year terms – *we would like to appoint a co-chair this fall*
- Topic committees of 10-12 people; natural attrition – *we're looking for new members*
- Join us on the CCM topic committee! See Todd, Karen, or me
